Summer Trip

陽光計劃之夏學遊

When and Where?

July

Why in July when it is super hot and humid? We go during mid-July is because this is the only time that will match the Chinese Senior High students' availability to attend the English Training Camp and they will have just finished their exam before they go back to their home village in rural areas.

Guangxi (廣西)

The family members of students living in the rural areas in Guangxi are usually farmers and have lower income. Many families live in the mountainous area and it may take the students 2-3 hours to bus to school everyday. Therefore students must live in the dormitory within the school.
